Additional information:

Island services: For the terms of service to islands in the North Sea and Baltic Sea, please enquire with your local GO! depot.

Remarks on size and weight: To calculate the kilogram rate, the higher of the real weight and the volumetric weight is taken as a basis and divided by 5.000 according to the IATA formula.

Volumetric weight (in kg) = length × width × height (all in cm) / 5.000

For consignments comprising multiple parcels, the kilogram rate of the chargeable weights of all parcels will be added together.

If your parcel extends one of the following dimensions please get in touch with your local GO! depot: length 2.70 m, length and girth combined (calculated as length + 2*(height + width) 5.00 m), 50 kg. Please note that a bulk goods surcharge applies if a parcel extends following dimensions: 50 kg, length 2.70 m, length and girth combined 3.60 m.

Fuel surcharge / security fees: Security fees may be charged in the case of air freight (e.g. for same-day delivery).

Terms and Conditions: Upon order placement, the current services, rates and general terms and conditions of GO! Express & Logistics (Deutschland) GmbH shall apply. Right of adjustments reserved.
