**About GO! Express & Logistics**

GO! Express & Logistics was formed from the merger of eight regional courier and express service providers in 1984 and has grown into a global network in almost 35 years.

The individual GO! stations in Germany and abroad work independently to a large extent, enabling them to flexibly respond to their customers’ needs and local market conditions.

The GO! head office in Bonn coordinates the operations of the individual stations in the international partner network under a single umbrella brand and ensures compliance with consistently high quality standards.
